Sunflowers

Big Yields

25 to 30 Tons Per Acre On Large Acreage

For some years past the C.P.D. Demonstration and Supply Farm at Strathmore have been raising sunflowers on considerable acreage with good results.

This year's yield has been very successful. There has been no damage from hail, frost, or other causes, the crop has matured in good time, cutting is well under way, and a proportion of the crop already stored away in the silos.

Eighty acres were seeded to sunflowers this year. On about fifty acres now cut, the yield has averaged between twenty-five and thirty tons to the acre.

That the sunflowers are good feed is proved by the fine milk yields the farm has been getting from their big Holstein herd. In the Company's herd having almost swept the board at some of the big fairs in Western Canada this season.

Many of the stalks are twelve to thirteen feet high, and two-and-a-half inches thick. They are being cut with a corn binder, then chopped and fed into the silos. Irrigation, of course, is partly responsible for the big yield, but good management and preparation naturally also are factors.

Hotel Changes Hands

Transfer of the Strathmore Hotel took place on Friday of this week, the necessary license having been received from Education.

Mr. Harry M. Thorburn, the new proprietor, has had considerable experience in the hotel business, and can be depended upon to run a first class hostelry. With him on Friday were his brothers, W. H. and Grant Thorburn, also Messrs Arnold Wark and J. Adams, of Calgary.

Mr. Inglis, the former proprietor, has not yet completed his plans as to what he will do in future, but first of all is taking a run down to his farm at Indian Head, Saskatchewan. "Bob" was well liked in this community, and all will be sorry to see him go.

HARVEST DANCE

MEMORIAL HALL, STRATHMORE

Friday, September 25

Music by Mrs. Trainor's Famous Orchestra.

Admission—Gents, \$1.00, Ladies, 50c

Threshing Delayed

By Heavy Rains

Yield and Grade Are Good

Threshing commenced throughout the district last week, but was interrupted by heavy rains on Friday evening, and on Saturday, and did not again resume until today. A number of outfits were not operating last week, but this week they will all be at work. Cutting will soon be complete. There has been no frost damage.

The first 1925 wheat was hauled into the Alberta Pacific Elevator at Strathmore on Thursday by Leonard and Charlie Hill. It weighed No. 1, weighed 64 pounds to the bushel. Leonard says that this first shipment averaged 26 bushels to the acre, but states that this is the lightest part of the crop, and he looks for heavier yields on the remainder.

While it is hard to get accurate estimates on the crop yet, only a small proportion of the crop having been threshed, yet from all reports it is going to be a much better average than last year. When it is considered that the damage from hail and oblique rains was light this year, except in Carseland and Dalemead districts, the amount of grain shipped will be as heavy as any in the history of the district.

Among the reports received are as follows: G. C. McMeny, north-west of Carseland threshed 160 acres that averaged 31 bushels to the acre. Alex. Johnson, eight miles south-east, Strathmore, has so far averaged 27 bushels.

Hans Thomson, near Namaka, averaged 32 bushels per acre on 5 acres.

Herbert Procter, ten miles east Strathmore, has so far been threshing stubble, which has averaged about 24 bushels to the acre.

The best yield yet reported is from W. E. Julien, in the same locality who from an acreage somewhat under a quarter section in summerfall, has threshed an average of 37 bushels per acre. He expects the rest of his crop to average up quite as well.

Reports on other yields will be found in the district notes throughout this issue.

We will be glad to receive for publication, reports of yields from farmers and threshermen.

RAIN FALLING AGAIN
Rain was falling today (Wednesday) at time of going to press, which will further delay threshing.

Weather Report

Supplied by C. P. Irrigation Dept.

September 1 to 7, 1925

1	44.8	75.0

5	46.0	50.0
6	44.2	61.5
7	57.0	69.8

School Fair

September 15th

The annual School Fair for the schools of this district will be held next Tuesday. Weather conditions being favorable we are assured of a bigger and better fair than ever.

The prizes total around \$500 in goods and cash. For the first time two fine shields are to be awarded the schools winning the diplomas offered by the Department of Education and Agriculture. Any school winning either of these shields for three consecutive years or for five years in all becomes the possessor of the shield.

The order of events is as follows: 8 a.m.—10 a.m.—Placing of exhibits. 1:30 p.m.—Parade starts from the park. 2:30 p.m.—Physical Drill Competition. 3:30 p.m.—Pony Race, 1 Mile Race.

As there is no programme of sports this year, it is hoped that the general public will have a better chance to view the exhibits than in former years. The entries in all classes will be well worth a careful inspection.

It is the aim of the School Fair Committee to make our Fair the best in the province. It believes that these Fairs, when properly conducted may be of incalculable educational value. For this reason the committee invites any suggestions or constructive criticism which will enable us to achieve our aim.

Entry tags may be had on application to the Secretary. All entry tags should be doubled across and sealed with a sticker so as to hide name of school or exhibitor's name. The number of the class as per prize list, and age of exhibitor, should be written on the outside. Attention to this will greatly facilitate the placing of the exhibits.

We beg to acknowledge the following additional donations to the prize fund: Dr. Giffen \$2.00, R. H. Anderson \$1.00, H. M. Thorburn \$2.00, Gatenby & Fisher, merchandise.

Langdon and

Shepard Go Wet

Close Vote Is Registered

The proposal for local option for the village of Langdon and for Shepard Municipal District was defeated by a very close vote, the figures being: For local option 322 Against local option 312

For local option 322

For local option 312

Polling took place yesterday. There were four spoiled ballots. The vote in Langdon village was a tie 19-19.

The reasons for the vote were proposals to establish beer parlours at Langdon and Shepard. Mr. Fred Goe being behind the Langdon project, and Mr. McCartney having a similar proposal for Shepard. If the Liquor Control Board are satisfied with the vote it is probable that building at these two points will be commenced shortly.

Man Hit By Auto

Two Ribs Fractured, and Various Other Injuries.

A man giving his name as Hugh McLean, address Calgary, was run over by his own car near the bottom of Third Street at eleven p.m. last night, and badly injured. He had two fractured ribs, his back was hurt, and he was also cut in the head. He was taken to Calgary at midnight for X-ray examination and treatment. Dr. Moore rendered first aid here.

Two ladies were in the car with him. McLean's statement was that he thought something was wrong with the car, and he jumped out and went ahead for a bit. Mrs. Murphy, one of the women in the car, started the car up and drove it slowly towards him, but when he attempted to jump on the running board he slipped, and the car passed over him.

The injured man was driven to Calgary by Mr. Arnold, of Arnold Motors.

Memorial Stone Unveiled

Inspiring Address By Hon. R. B. Bennett.

Despite bad roads and uncertain weather the largest number of people yet assembled in the Great War Memorial Hall at Strathmore gathered on Sunday to do honour to one sootiest dead from this district in the unveiling of the memorial stone in front of the hall by Hon. R. B. Bennett, K.C., L.L.D.

It had been originally intended to hold the whole of the ceremony outside, but owing to the weather, only the actual unveiling and conclusion took place outside, the remainder being conducted in the hall.

The ceremony opened with an invocation by Rev. A. D. Currie, followed by "O Canada" by Strathmore Citizens and school children. The hymn "Love Divine, All Love Excelling" was then sung, followed by the reading of the passage from Ecclesiastes beginning "Let us now praise famous men". Other hymns sung were "O God, Our Help In Ages Past," and "Hallelujah (Recessional)". The anthem "What Art Thou?" was excellently rendered by the joint choirs of the local Anglican and Union Churches, accompanied on the organ by Mr. E. W. R. Lambert.

The school children, marshalled under their teachers, occupied one section of the building, while seats were also reserved for next-of-kin and ex-service men, but owing to the crowd many had to stand throughout the service.

Chairman's Introduction

The chairman, Mr. John Mackenzie, in introducing Mr. Bennett, said that this was a memorable day in the history of Strathmore. The Great War Veterans Association had several audio objects, first among them being the perpetration of the names of the men who had fallen in the fight for liberty. Second, was the protection of the wounded, the widows, and the orphans, who were not able to succour themselves. Another was the continuation of the comradeship of war.

ing the years of peace. It was in pursuance of the first object that they had laboured since 1919, with the generous assistance of the people throughout the district, for the erection of this hall and stone. They had on this occasion particularly to thank the trustees of Strathmore Presbyterian Church for their generous gift, which had enabled them to construct the stone.

The Unveiling Address

In commencing an eloquent and inspiring address, Mr. Bennett congratulated the people of Strathmore and district on the splendid memorial they had been enabled to raise in the hall and stone. It was fitting that there should be memorials to those who had fallen in the light for freedom, and it was good that they should be in a form that combined remembrance of the fallen with service to the social life of the community.

There were two great reasons which impelled them to erect memorials to the heroes of the war. One was gratitude, and the desire to express appreciation. The other was to set up for the benefit of generations to come the example of self-sacrifice shown in these men.

To quote the words of Rupert Brooke, the young English poet, who himself died on a foreign shore: "If I should die, think only this of me: That there's some corner of a foreign field."

That is forever England. There shall be in that rich earth a richer dust concealed;

A dust whom England bore, shaped, made aware, Gave once her flowers to love, her ways to roam

A body of England's flowers English air,

Washed by the rivers, blest by sun and of home."

What the Fight Was For

The men we met overseas saved the world from autocracy, and the objects they fought for could be stated in three words. Liberty, Freedom, Justice. Liberty for the world, freedom for the state, justice for the people. Their deeds had made for Canada a name among the nations of the world, a name that it was our duty to maintain. A great price had been paid for our freedom, and we should endeavour to live worthy of the sacrifice made.

The Example For Us

These men set before us the example of devotion to duty, self-sacrifice, and discipline. We heard a great deal today about personal liberty. There was no such thing as personal liberty except in the savage state. Liberty in itself implied restraint. Liberty for the world, freedom for the state, justice for the people were under strict discipline. They had to subordinate themselves to the will of their commanders for the good of the cause.

A Word to the Young

Civilization implied restraint. That was what we were apt to forget in these days when the doctrine was preached that everyone should be free to act as they wished. He appealed to the young people of both sexes particularly to heed the lesson, and not to chafe at restraint, admonition, and discipline. It was necessary for the future of our country and for the world.

The lesson he wished to impress today was that we must strive to be better men and women, true to the commonwealth, and enshrining in our hearts the memory of those men who had died for our sakes.

"MEN'S BETTER WEAR"

New Car Design

Ford Motor Company Announce New Models

Body changes and Chassis refinements more pronounced than any made since the adoption of the Model T Chassis, were announced at Ford, Ontario on August 29th by the Ford Motor Company of Canada, Limited. There will be no advance in price.

It also was stated outstanding features of the improvements in both Open and Enclosed types are:

Lower all Steel Bodies on a Lower Chassis. Complete new design in most body types. A change from black to color in Closed Cars. Larger lower fenders. Newly designed seats. Longer lines effected. Though higher radiator and redesigned cowl and bodies are apparent in all improved Ford Cars, they are especially pronounced in the Open types. Wide crown fenders hang close to the wheels contribute to the general effect of lowness and smartness. While Runabout and Touring Car remains in black the Closed Bodies are finished in colors. The Coupe and Tudor Bodies are finished in deep blue, while the Fordor is in grey.

Greater comfort is provided for Driver and Passengers in both Open and Closed cars by larger compartments, more deeply cushioned seats and greater leg room.

Many new conveniences are also incorporated in the improved cars. In all motors except Truck the gasoline tank is under the cowl and filled through an ingeniously located filler cap completely hidden from sight by a cover similar in appearance to a cowl ventilator.

One-piece windshield and narrowed pillars in the Tudor and Coupe offer the Driver greatly increased visibility and improved ventilation. Driving comfort is materially increased by lower seats, scientifically improved

back rests and lower steering wheel. Brake and Clutch pedals are wider and more conveniently spaced. Curb-tails of Open Cars are held secure by rods which open with the doors.

At the main offices of the Company in Ford City it was stated today that production of the new line is under way in all Assembly Plants of the Company throughout the country and the improved cars are being sent to Dealers for showing.

The ducks are getting plentiful around the sloughs and are also of a good size.

Golf News

LADIES' CLUB

The qualifying round for the handicap was played on Friday last, accordingly winning the prize to be presented on one week's notice (to be made on next day). The draw of the next round, or the handicap cup is as follows:

Cup Games

Mrs. Whiteside vs. Mrs. Hill
Mrs. Patrick vs. Miss Kuyvet
Mrs. Ridley vs. Miss Gibson
Miss Watson vs. Miss Brown.

The draw for Consolation Medal:

Medal Games

Mrs. T. Chamberlain vs. Mrs. Hill
Miss Borton vs. Miss F. Garrett
Mrs. S. Chamberlain vs. Mrs. Stockton
Mrs. Pierson vs. Mrs. Whitney
Mrs. Lydiatt vs. Mrs. Rowe.

The play for the Cup and Medal is by holes (match play) and these games must be played by Monday, September 14.

Players will call for their match cards at the Strathmore Hardware Co. These cards must be filled in, signed after the game by the opponent, and dropped in the ladies' box, not brought away from the links. It has been decided to hold a special competition for beginners later on for the prize of a handsome golf pencil and snuffbox. The prizes for the ladies' tournament are on view in a window of the Strathmore Hardware Co. Players are reminded that each stroke played in the tournament must be called aloud or the player will be disqualified.

It is easy to make an unintentional mistake in counting, but unpardonable to score carelessly, and the heaviest penalty—disqualification—is exacted for a breach of this rule. Contestants are invited to pay their entrance fee, 25c, to the secretary-treasurer, Miss Brown, at the Royal Bank, this week. The ladies' club are very appreciative of the fine condition of greens 1, 2, 5, and 9, and wish to thank Messrs. Van Tichem and Nock, Downie, Hill and Patrick, and W. Gray for preparing same in time for the opening of the ladies' tournament.

British Journalists To Visit Strathmore

BRITISH JOURNALISTS STUDYING CANADA

Party of British newspapermen now touring Canada at the invitation of President E. W. Beatty, of the Canadian Pacific Railway, for the purpose of getting first hand information of economic and industrial conditions in this country. From left to right they are: John A. Bains, Glasgow Herald; C. J. Berry, Daily Telegraph, London; F. R. Peterson, The Times, London; H. Read, South Wales Daily News, Cardiff; Captain E. Aitken, Morning Post, London; Hugh Martin, Daily News, London; E. A. Colwell, Western Morning News, Plymouth; W. A. Renton, Daily Chronicle, London; J. F. Chapter, Westminster Gazette, London; Harry Smith, Canadian Pacific Press Representative; John Sayers, Belfast Telegraph.

The party of British journalists at 3 p.m. on the afternoon of September 14. On arrival they will be met by several local citizens with cars and taken round the town and to the C.P.R. Demonstration Farm, where lunch will be served. The party will afterwards drive to Calgary by car.

CRAIGANTLEE NEWS

Cutting is finished and threshing started. Some yields are fair, but not what was expected. Some stubble is going as good as summerfallow. H. Danilwerth had some stubble that, went from 20 to 24 bushels, and some summerfallow on the next section that averaged about 20 bushels with lots

of straw. If a young fellow is too slow to catch the Standard local train when going to see his best girl he is not very deep in love. This happened last Saturday. We don't know whether he tried the freight.

J. B. Johannsen has purchased a threshing outfit.

Mr. B. Elder had the misfortune to lose a granary and a quantity of wheat

besides a wagon and rack and a number of acres of stubs by fire, caused, they think, by a spark from the engine. By quick work on the part of the staff, the separator was saved. Mr. David McBean, just two miles south of Craiganter district, is the greatest alfalfa grower in this part of the country. Mr. McBean says his hay crop per acre is worth more than wheat to him. To see his stacks would convince you.

Rockyford

Saturday is Paramount night at Rockyford Theatre, and as a special attraction the management are showing "Plastigrams." This is the greatest screen novelty yet invented, and a treat for old and young alike.

R. W. Watson, J. Larsen, and another man were fined \$100 each on a charge of gambling, or permitting gambling. The case was heard by Justices Brinsler and Lennard. Mr. J. A. McIntyre appeared for the defence, and Constable Carr prosecuted.

Rockyford Tennis Club played at Drumheller Sunday and Monday, and won most of the honours in the tennis tournament. A. D. Katterhagen won the gent's singles, while he and Mr. Van Ostrum won the gent's doubles. Mrs. Van Ostrum won the ladies' singles.

Mr. Alphonse Helzlmir was taken quite sick last week, and is in Rockyford Hospital with an attack of pneumonia.

An alarm of fire from the town pump-house caused some excitement last Saturday. Mr. C. M. Grubbs, the pumpman, burned his hands quite severely, but no further damage was done.

Mr. and Mrs. George W. Burrows, of Topeka, Kansas, who have been visiting their son-in-law and daughter, Mr. and Mrs. Phil Langenfelder, left on Tuesday evening for Vancouver, en route for their home, after a pleasant sojourn in Rockyford.

The Gaiety Girls put on an enjoyable dance last Friday, which was very successful, despite the wet weather.

A meeting to discuss the question of establishing a rural high school district was held in the Town Hall last night. Details will be given in next issue.

Quite a number of Rockyfordites spent the week-end at Banff.

The Rockyford Council met on Wednesday evening.

The golf tournament is now on, and about two-thirds of the first rounds have been played. See the list in the drug store. The tournament is to be completed by the first of October, so get busy if you have not yet played your schedule games.

We understand plans are being prepared for the building of a curling rink for this winter. How about a meeting.

Threshing was interrupted for several days by heavy rains on Friday and Saturday. The average yield is 2000 bushels being anywhere from twenty to forty.

Ottawa—Figures showing export of Canada's chief grain crops for the twelve months ending July 31, 1925, reveal the interesting fact that, while exports fell off in bulk by over 20 per cent., value of exports showed a decrease of little more than 10 per cent. For the twelve months total exports of wheat, barley, oats and rye amounted to 215,702,247 bushels, having an aggregate value of \$276,261,424, whereas for the corresponding period of last year exports totalled 252,570,051 bushels of the value of \$225,245,598.

Pianotorte Recital

The pupils of Miss F. H. A. Boltz were presented in recital Sunday afternoon at Rockyford Town Hall to a good sized and appreciative audience.

From the opening number played by little six year old Margaret McTaggart, who was so tiny she had to stand in order to play, to the concluding number by Father Boltz it was a program of particular merit.

The beginners showed well developed appreciation and understanding of their various selections. The gay Ping melodies and more serious themes were presented in a delightful and easy manner.

The work of the advanced pupils showed a remarkable development in technique without sacrifice of interpretation or melody.

Of special interest was "Clement's Concerto" arranged for two pianos, played by Mae Birt and Lillian Dyer. This particular number was a severe memory test and called for perfect tempo, and it was handled by them in a most creditable manner.

The individual selections played by these young ladies were of especial merit.

The concluding numbers by Father Boltz rounded off an exceptionally well arranged program. In his usual delightful manner he played two selections by Chopin and by request "Southern Melodies."

The programme was published in our issue of August 26. The following pupils took part: Druella Browns, Mae Birt, Alice Birt, Alice Carpenter, Lillian Dyer, Dorothy Dyer, Winifred Dyer, David Lenz, Betham, Betty Leonard, Louise Bosted, Mary Colbert, Marcelle Fester, Margaret McTaggart, Marian Rupper.

The others were Francis Ryan and Lowell Danmore.

Rosebud News

Mrs. A. E. Vigar has been ailing for some time, and made a trip to Calgary for treatment last week.

Jim Till is in the Drumheller hospital, but we have been unable to learn the seriousness of his illness.

Mr. and Mrs. Frank Archer have been on the sick list the past week, and Mr. Archer is still confined to bed with quincy.

Wheat threshing was in full swing until the rain Friday evening called halt in this district. Wheat is averaging anywhere from 10 to 40 bushels per acre.

We were more convinced than ever that Dr. Keogh's slogan, "No Place Like Rosebud" was correct when Mrs. Chas. Constock called over the phone last Saturday and announced that they, Mr. and Mrs. Constock and Philip, were back to stay, also Mrs. Constock's parents, Mr. and Mrs. Hannum, accompanied them and will make their home here with the Constocks. I feel sure this item will be pleasing to the whole community, as they were greatly missed when they departed for the U. S. eight months ago.

Rial Har, Wilfred Hyman, and Del Drummer will take up school duties at Mount Royal College this week.

Born to Mr. and Mrs. A. Cunningham, a son, on September 6th. Mother and son doing well.

Mrs. Eldridge and Mrs. Adeson were visitors in the Till home over Sunday.

They step out of the picture to you. Special coloured spectacles will be given free of charge to each member of the audience, and all kinds of illusions will be seen through them. Don't fail to see this, the greatest attraction on the screen.

UNITED CHURCH NOTES

Beginning next Sunday, it is the intention of Mr. Rogers to give a series of addresses on "What We Believe." We believe that the time is opportune for a re-statement of our faith and doctrines, and for the next two Sundays it is our purpose to consider the question "The Bible—where did it come from; what is its purpose; in what sense is it inspired; and what does it reveal?"

A very interesting "School of Religion" was held during the last week in Mount Royal College, when Lectures were delivered by Drs. Tuttle, Jackson, and Miller of Edmonton; and evening lectures were given by Dr. Hubbard of Williams College, Mass., on "Christianity and Culture."

The first gathering of the United Church, Annual Conference will be held in Calgary October 27th, when Dr. Pidgeon, the Moderator of the United Church will be present and our Provincial work will be organized.

Will all our people keep in mind the Annual Rally Day in our Sunday Schools, September 27th, Special Programme will be provided.

"Their Name Liveth For Evermore"

Social & Personal

Mr. J. P. Lowry was quite happily surprised on Friday last, when two of his old-time postal associates, Mr. J. H. Biegar, U.S. letter carrier, and Mr. E. Anderson, railway mail clerk, running between Spokane and Portland, dropped in on him. They were taking their annual leave of fifteen days, and desirous of seeing the head of Alberta country, made the trip by auto. They express themselves as being very favorably impressed with the wonderful crops and prosperity of this country. They left on Sunday returning home by way of Great Falls, Montana. Mr. Lowry was with the Post Office Department for fourteen years before coming to Strathmore.

Mr. A. D. Currie, after an absence of nearly a year, undergoing treatment in Calgary, has returned to Strathmore again.

Mr. S. H. Howe has been confined to the house for some days with an attack of muscular rheumatism.

Mr. Edward Flynn, of Kenosago, Quebec, is visiting with Mr. and Mrs. T. H. Eves at present.

Mr. and Mrs. R. Gray attended the Anderson-Gibb wedding, held at the house of Mr. and Mrs. D. S. Melroy, Calgary, on Monday.

Final Pool Payment Eleven Cents

Cheques Are Now Being Sent Out—Three Cents Deducted for Purchase of Elevators, Etc.

The final payment of the wheat pool was announced on Saturday by the central office for the wheat pools as 11 cents per bushel. This makes a total payment for No. 1 northern of \$1.66 per bushel. Cheques are now being received by local pool members.

The amount received by Alberta farmers is 8 cents per bushel, 2 cents per bushel having been deducted to form a fund for the acquisition of building of elevators, the remaining cent being for commercial reserve and for administrative purposes.

The elevator fund and the commercial reserve can be classed as tangible assets to each pool member. Local pool members are well pleased with the result of the year's operations, and it is stated that many new members are at present being added to the pool, which at present controls more than half the grain acreage of the Province.

School Column

School opened September 2nd, the only change in the staff being in the Primary Room, where Miss Strong is taking the place of Mrs. Oxtley. At the present time between 170 and 180 pupils are enrolled. Grade XII is not being taught this year, and so the three High School grades are in the principal's room.

There was a very gratifying attendance at the School Fair meeting last Wednesday, when final arrangements were made.

One more change in the assignment of prizes has to be announced.

No. 145—The second prize for the Parade will be \$500. The picture, "Defenders of the Empire" will be awarded to the school obtaining the most points in the "School Collection".

An important result of last Wednesday's meeting was that a committee was appointed to investigate all cases of alleged irregularity or unfairness in the exhibit. The committee consists of Mr. Vickers, Mr. Freeman, and Mr. Harold Hinton. They were empowered to add their number.

A further account of the Fair will be found in another column.

School opened on Tuesday; one hundred and seventy pupils being in attendance. This is slightly more than last year when about 162 were in attendance at the beginning of the term. The number of beginners is 15, and the grades are divided as follows:

Miss Strong, Grades I and II, 20 and 13.
Mrs. Dunn, Grades III, IV and V, 10, 6 and 17.
Miss Crawford, Grades VI and VII, 20 and 6.
Mr. Crowther, Grades VIII, IX and X, 17, 11, and 7.
Mr. Whitney, Grades IX, X, and XI, 17, 11, and 7.

Noted Engineer Gives World Trip Views

Dr. Hiram M. Savage Tells C.P.R. Staff of Conditions All Over Globe.

Dr. Hiram M. Savage, of Berkeley, California, spent Tuesday and Wednesday of last week in Strathmore as the guest of Mr. and Mrs. R. S. Stockton, and inspected the Western Bow Valley Irrigation project.

On Wednesday evening he addressed the members of the C.P.R. Irrigation staff in the headquarters building on "Conditions, experiences, and impressions of Great Nations, resulting from complete trips around the world."

Dr. Savage is one of the most outstanding engineers on the American continent. He was Supervising Engineer for the U.S. Reclamation Service during the construction period of some of the big irrigation projects in the United States. Mr. Stockton was assistant to him on some of the projects in the States previous to coming to Canada, and this accounts for Strathmore having the honour of a visit.

In the course of a very interesting address, Dr. Savage gave his impressions on conditions in the various countries he visited, with special attention, naturally, to irrigation systems.

Egypt is Restless

Dr. Savage mentioned the great work accomplished by the British in Egypt in irrigating millions of acres in Egypt and the Sudan, but said that the Egyptians were very restless, and wished to have control of the works themselves, which would not be to the advantage of the country, as they do not possess, in his opinion, ability to properly handle them. Egypt was very evident in Africa and Asia, and it was a hard problem to handle. Cotton growing was being greatly developed in some sections of Africa.

He saw numerous wild animals in Africa, such as hippopotami, rhinoceroses, etc. He did not see any lions, and though he was only armed with a jack-knife and a camera, he was never in any danger.

India was a country awaking with people. Irrigation was a vital necessity, for the failures of the water supply in any year meant drought and famine. The irrigation systems there were immense, and were of the very latest construction. The while, engineers of these and of the railway systems were, however, finding their situation unpleasant, on account of the demands of the natives to run the systems themselves, although they admitted they could not do it as efficiently as the British.

Mexagonia

The ancient "Garden of Egypt" had also been the scene of much engineering and irrigation activity. The big, best problem in connection with irrigation there was drainage, as the land was so flat that it waterlogged.

Australia

Australia was a country of great extremes of climate. Attempts were being made to settle the northern part with white people, but this so far had not been successful, on account of the torridity of the climate. He believed that some of Australia's problems were due to the dominance of labor. When he was there, labour leaders were proposing a law that employers would have to pay their men while on strike just the same as if they were working. Australia was trying to maintain itself as absolutely a white man's country, and so far as they had been successful in keeping out the colored races.

Regarding Australian railways, he was surprised to find that there were different gauges in use throughout the various States, and it was not a pleasant experience at each boundary line to have to pack up all belongings, sometimes in the middle of the night, to transfer to another train.

New Zealand

Conditions approached the ideal in New Zealand more than in any country he had seen. Climate and scenery were delightful. On account of the distance from the great markets of the world, they did not receive high prices for their produce. There was an absence of very rich people, and of the very poor people, which made for the best kind of living conditions.

Japan and China

In talking of Japan, Dr. Savage mentioned the effects of the earthquake, and of what had been done in the way of reconstruction since. He said the Japs were a wonderful people commercially. The Chinese were the cause of a lot of worry to the other nations at present, and he did not know what would be the ultimate outcome. China was a country which suffered very largely from the

effects of floods and droughts, and millions of people died yearly from these causes.

Philippines and Hawaii
Dealing with these colonial possessions of the United States, Dr. Savage said the Japanese were gradually taking them over by immigration. Forty per cent. of the population was Japanese. Congress was letting the natives run the Philippines, and in his opinion was making a great mistake, as they were not fitted for self-government. The native legislature could not clear the hall and grounds of a Governor's.

Mr. Savage dealt in an interesting way with various other countries, and in answer to questions gave a short talk on the origin of earthquakes. A hearty vote of thanks was passed him at the conclusion of his address.

Fund of Remembrance

\$2,300 is still owing on the Great War Memorial, comprised in part, mortgages which are now due, and the Great War Veterans Association have authorized an appeal for subscription to clear the hall and grounds of a Governor's.

The following donations, received since Sunday, are acknowledged with thanks:
Hon. R. B. Bennett, C.K., L.L.D. \$50.00; J. Lamb, \$50.00.

STRATHMORE WAR MEMORIAL

The erection of the Stone completes the Memorial project which members of Strathmore G.W.V.A., and citizens of the town and district, have been working on since the end of the War. The total cost is in the neighbourhood of \$20,000. This sum has been raised by public subscription, grants from M. D. Bow Valley, Town of Strathmore, and Strathmore Presbyterian congregation, also from proceeds of stampedes and other sport functions, and since the building was completed, from rentals. There is still a debt on the Memorial Hall of \$2,300, comprised of two mortgages, one of which is partly paid, with a balance of \$1,200 overdue, and the other, for \$1,000, is due before the end of the current year. A memorial should not be mortgaged, and these mortgages appreciate contributions towards the end of wiping these mortgages out. It is not the intention to ask those who have already so generously contributed to again contribute, unless they particularly desire to do so, but there are a large number throughout the community who were not in the district when the last canvass was made in 1921, or if in the district were either overlooked, or did not feel financially able to contribute. Those who feel that they desire to assist in the cost of the Memorial can give their cheques or proceeds to W. S. Patterson, Secretary G.W.V.A., or John Mackenzie, Treasurer Memorial Building Fund.

LOCAL JOTTINGS

Irricana Masons are holding their annual church service on September 13. Rev. A. T. Attwood, of Ogden, will officiate, and an invitation is extended to all Masons in the district to attend. The service commences at 2:30 p.m.

A postcard from Mr. Chas. Allen, in charge of the C.P.R. Exhibit at Wembley, England, informs us that he is spending a week in Paris, and taking in the Paris Exhibition. It is a very grand display, he says, but the weather is hot and dry.

There will be a dedication service for the new organ at Crowfoot School on Sunday, September 13, at 11 a.m. The organ committee will give a report. A full attendance is desired.

Mr. E. B. Bartelen, a prominent local farmer, finds that the pump and piping has been taken from his former home place. He would like the pump-borrowers to take it back when they are through with it, but if they need it badly, he says they might as well take the hole too.

A meeting of Gleichen constituency U.F.A. locals will be held in Strathmore early in November for the purpose of organizing for the Provincial election.

The present condition of the Calgary road, on which a huge sum of money has been spent this summer, is a disgrace to the Province. Everyone going into Calgary from the east takes a longer way round to avoid it. And all for want of attention after rains. What is our local M.L.A. doing about this?

Details of Telephone Competition

Prize winners have been announced in the fourth annual building and grounds contest of the Alberta Government Telephones. This is an annual contest in which the various agencies throughout the province compete for silver shield and cash prizes given to the department for the best appearance of the main contest there are subsidiary contests for best exterior, best interior, and best advertising signs.

The judges, Messrs A. M. Mitchell, Auditor of the Government Telephone, and C. G. Guff, Provincial Publicity Commissioner, announces the following results:

Main Contest

First—Strathmore Agency, managed by A. McFarland, silver shield and \$50.00 cash.

Second—Stettler Agency, managed by Herbert Allen, \$25.00 cash and diploma.

Third—Louise Exchange, Calgary, managed by C. W. Chamberlain, \$15.00 cash and diploma.

Though there were no more prizes offered in this contest, the fourth, fifth and sixth placings were as follows:

Fourth—North Hill Exchange, Calgary, managed by I. Patterson.

Fifth—Red Deer Agency, managed by W. Kenesley.

Sixth—Valcan Agency, managed by Roy Greene.

The other contestants were: Wetaskiwin, Dryden, Sedgwick, Alliance, Innisfail, Macleod, and Camrose. Camrose, Sedgwick, and Medicine Hat Agencies competed for interiors.

The subsidiary prizes were awarded as follows: the prize in each case being \$10.00 in cash:

Best Advertising—Coronation Agency, managed by Mr. Shaw.

Best Exterior—Calgary North Hill Exchange.

Best Interior—Medicine Hat Exchange, managed by Guy Goss, Pailing, with Camrose a close second.

This is the fourth year in which the contest has been conducted by the Government Telephones. The shield was won in 1922 by North Hill Exchange, Calgary, in 1923 by Innisfail, and last year by Red Deer. Stettler has been in the first three winners for three successive years, the only agency so far to establish that record.

In the main contest this year there were 29 entries, all but 15 being eliminated by the judging done by the district superintendents. The finals were judged by Mr. Mitchell and Mr. Guff.

All of the offices visited showed excellent improvement in grounds and buildings, and the results were ample proof of the value of the contest. The work of building up gardens and flower beds and making the buildings attractive, and estimating advertising propaganda is entirely the work of the staffs of the various agencies.

British Boys Leave Strathmore

Well Pleased With Month's Stay, and Wish It Had Been Longer.

The party of four boys from England, who have been in Canada for the past six weeks as the guests of President E. W. Leach, of the C.P.R., left Strathmore on Thursday for Vancouver, where they will have a short look at the Pacific. They will then be transported back to Montreal, boarding the Mount Royal on September 11.

The party arrived here at the beginning of August, and have been at the Demonstration Farm since that time. They have had the opportunity to participate in all the various tasks on the farm, milking cows, cutting sunflowers, haying, and doing everything that would seem to them acquainted with the Canadian way of doing things. During their stay Mr. Geo. H. Jones, farm manager, has been their guide, philosopher, and friend, and they enjoyed their visit so much that they were loath to leave, expressing the determination that they would be back in Canada some day.

The boys are keen students, having been selected for this trip by virtue of scholarships in agriculture won in the old country. In fact, they know more about farming than some who are protesting farthing throughout Canada, and they have no hesitancy to voice their criticisms. The land is the Old Country, despite that it has been raising crops for a thousand years, still has an average wheat crop from year to year of over thirty bushels to the acre, and this is only won by careful study of the soil, rotation, time, and crop rotation, three requirements which are only practiced to a small extent here, but which will have to be adopted if the soil is to retain its yielding qualities.

Two of the boys, Alfred Baleton and Leslie Anney, hall from Sussex, Jac. Hitchings from Hampshire, and Ronnie Howe from Devonshire.

Mr. Jones has found them keen workers, and intensely interested in every department of the farm.

One pleasant feature of the trip to them is that they leave Strathmore with more money than they came in with, having been paid for their work on the farm.

They had expected to have been in Canada six months, and are somewhat disappointed that they are going home so soon. But after all, they are in agreement that they have had "a jolly

Keoma Notes

The School Fair at Delroy was one of the most successful ever held from the viewpoint of teacher and scholars. The parents also showed themselves very interested in the work, which was much appreciated by the teachers present. Thanks are also due to those who provided and helped to serve the much appreciated lunch. Bruce Lakes were well ahead in points for school work, but as they have a large attendance it is not yet known which school gets the banner.

The secretary of the Dramatic Society announces the balance of \$245.70 towards the plans for the fall.

Mr. Thompson Sr. is visiting his son Mr. Charles Thompson for a few weeks.

Mrs. Clark is visiting her mother Mrs. Ross of Calgary for a few days.

Miss Clara Park has gone to Calgary to take up her grade X studies.

Namaka

The Namaka Ladies Aid held their regular meeting at the home of Mrs. Jack McLean on September 2. The topic of conversation was the Thanksgiving Supper, to be held sometime in the early part of November. The next meeting will be held at the home of Mrs. H. E. Johnson on October 1st. All members are urgently requested to be present to complete the arrangements for the supper.

Mr. Harry Baker spent the week end at home with his parents.

Mr. E. Culley has returned to take up his duties as teacher in Namaka. Miss Tims taking the primary.

Mrs. James Beach, of Cranbrook, spent a week visiting her sister, Mrs. Baker.

Threshing has commenced in the district. H. E. Johnson's combine is the first load of grain on August 25th.

Mr. James, of Medicine Hat, is now stationed at the Revelstoke Lumber Co. Mr. Montell having left for Gleichen.

Good time in Strathmore, and they had a cheerful farewell to Mr. Jones and the farm staff.

Come--Get Your Hunting Supplies!

Cheadle

Mrs. John McLean, who has been seriously ill, is reported to be some better, and it is hoped by all her friends that she will make a quick recovery.

Miss C. Miller and Billy Craig are attending high school in Calgary.

School has reopened with a full attendance in charge of Miss Gilling.

Jim McLean is back for the harvest and threshing, and reports Mrs. McLean and boys doing fine in the field.

Mrs. Colin McDougall is staying with Mrs. Craig while Mr. McDougall is threshing. Colin will be remembered by the old timers of the Langdon and Cheadle districts, as he was a resident of Langdon for years.

Tim Kildee, who was injured a few weeks ago, is getting along fine.

A. Pearson, C. Cowell and Stan Rao got a half-day's threshing done before the rain of Saturday. Grain is yielding good, but the grade will be a little off on some fields on account of green and shrunken berries.

Lionel Schell, of Castor, is helping in the A. P. Elevator this fall.

Memorial Stone

Unveiled

(Continued from another page)

Mr. Bennett concluded with a quotation from Pericles, the great Greek philosopher:

"But each one, man by man, has won imperishable praise, each has gained a glorious grave—not that sepulchre of earth whence they lie, but the living tomb of everlasting remembrance wherein their glory is cherished, remembrance that will live on the lips, that will blossom in the deeds of their countrymen the world over. For the whole earth is the sepulchre of heroes; monuments may rise and tablets be set up to lion in their own land; but on far-off shores there is an abiding memorial that no pen or chisel has traced; it is carved, not on stone or brass, but on the living heart of humanity."

"Take these men, then for your examples. Like them, remember that property can be only for the free, that freedom is the sure possession of those alone who have courage to defend it."

The Unveiling

Following the address the audience lined up around the Memorial, when Mr. Bennett removed the large Union Jack which covered it. After one minute of silence Sergt. Major J. H. Morgan, of the Lord Strathcona Horse, sounded the "Last Post." "God Save the King" was then sung, accompanied by the band, and the benediction pronounced by Rev. A. H. Rowe. A number of beautiful wreaths were then placed on the Memorial, after which the school children and public filed around and inspected it.

Many Wreaths

The wreaths placed on the Memorial were from the following:

Strathmore A.F. & A.M., Town of Strathmore, Strathmore I.O.O.F., Strathmore G.W.V.A., Calgary G.W.V.A., Provincial Command G.W.V.A., Mr. and Mrs. Lewis, Calgary; Mr. and Mrs. G. T. Berry, Mr. and Mrs. James Martin, Mr. and Mrs. T. E. Wright, Mr. and Mrs. Douglas French, Mr. and Mrs. G. H. Morgan, Strathmore School, pupils and staff; Mr. and Mrs. J. H. M. Martin, Mr. and Mrs. H. Freeman, Mr. and Mrs. J. Reeves.

Thanked At Luncheon

Before leaving for Calgary, Mr. Bennett, Sergt. Major Jacques, and the party of Calgary veterans, which included Comrade Fairley, Secretary of the Calgary Association, and four other members, were entertained to lunch, served by the Girl Guides, under the direction of Mrs. Douglas French. At this luncheon, Mayor Bell thanked the speaker of the day, Sergt. Major Jacques, and the Calgary visitors for their attendance.

Mr. Bennett, in reply, said he was honoured by having been asked to come here and perform the ceremony of unveiling, and congratulated the citizens on the splendid way they had carried through the proceedings. Comrade Fairley spoke of the work of the G.W.V.A. in caring for the dependents of those fallen, and several others also spoke.

Strathmore G.W.V.A. wish through our columns to thank Hon. R. B. Bennett, the choir, organist, Strathmore Citizens Band, school staff, and all others who contributed to the successful carrying through of the function.

The stone is of Vancouver Granite, fine-grained, and the name and inscriptions are carved in. The stone is over seven feet high, and weighs three tons. The sculptors are the Bonerville Company, Calgary.

Standard Notes

Mr. and Mrs. Melvin Muir arrived at the home of Mr. and Mrs. G. P. Muir on Tuesday from California via the Motor Highway through Yellowstone National Park. They expect to spend a few months visiting here.

Mrs. J. P. Hansen returned from Calgary on Friday.

Miss Alfreda Jensen was a passenger to Husar on Friday.

Miss Pearl Stirling has been engaged as teacher for the coming term at the South Valley School.

Several new threshing outfits were shipped into Standard last week which all go to show the prosperity of the district.

Among the high school pupils attending high school in Standard this term are: Miss Mary Law and Miss Barbara Muir, both of whom formerly attended South Valley High School in Calgary.

A party of motorists en route home from Kentucky, camped in Standard on Wednesday night, and spoke very enthusiastically about the surrounding country and the present crop, the like of which they had never seen before.

Mr. G. H. Dickson is having a new barn built. Contractor Swendsen is on the job.

Work has started on the foundation of a house to be built for Mr. Carl Sorenson opposite the house owned by Mr. Maurice Rasmussen.

Miss E. H. Allen, who has been an assistant in the post office for the past eighteen months, left on Tuesday for Hanna, where she will visit her brother.

Mr. R. Innesman, who opened a Bakery Shop in Standard last summer, closed his business last week and left for Calgary on Tuesday, where he has been offered a good position with one of the big firms there.

Mr. Seely Olsen, who was assistant in the C.P.R. Station here two years ago, has arrived to accept the same duties during the fall rush.

Edmonton, Alta.—This has been a good year for game fishing in Alberta and more than 4,000 anglers' licenses have been issued.

Federal Election Oct. 29

Returning Officers and Registrars Appointed.

The die is cast. Premier Macdonald, King announced on Saturday that the Federal election would take place on October 29. Returning officers have already been appointed, and the machinery of election is now in motion.

The chief reason given for the election is the alleged obstructionist tactics of the Conservatives. The election, according to the Premier, will be fought on the issues of transportation, immigration, fiscal policy, and senate reform, but of course the other parties will have some say in determining the issues.

Since last election constituencies in Alberta have been changed considerably by redistribution. Alberta will have sixteen members in the new parliament, as compared with twelve in the present. Strathmore, and the district around it, is now in Bow River constituency, instead of East Calgary as formerly. Carleton Place is in Macleod constituency. The present member for Bow River is E. J. Garand, and for Macleod C. G. Coote. Both are Progressives, though the former is associated with a group which has during last session disassociated itself from the official Progressives.

Mr. L. G. Caswell, barrister, of Drumheller, is returning officer for

Bread and Cake

Those two essentials to every well-appointed table—are our two leading specialties. Nourishing white, rye or whole wheat bread baked under the most sanitary conditions. Delicious cakes, large and small, in ample variety daily.

PATTEMORE'S BAKERY

Phone 97, Strathmore

Bow River. The registrar for Strathmore subdivision, which will consist of township 24, range 25, the north half of the township adjoining on the south, and the west half of the township to the east, is Mr. T. M. Wears. Mr. E. C. Waite is the registrar for Namaka subdivision.

For Quick Hot Water

Fill an SMP Enamelled Tea Kettle with water. No Kettle will boil water quicker. That means convenience, time saved, too. All SMP Enamelled utensils are very fast coming to the boil and in their job of cooking, but, but easier, more quickly cleaned after. The best any way you look at it. Think this over.

Victoria, B. C.—For the past few years, Western Canada has been experiencing a steadily growing boom in silver fox farming and on the island of Vancouver today there are about forty ranches, whereas less than eighteen months ago there were only four or five. The same proportionate growth is taking place all over the West.

ATTEND THE SCHOOL FAIR

Strathmore and District School Fair will be held on Tuesday, September 15. Those who attended last year's Fair will remember that it was the most successful yet held in the district, but the teachers and committee in charge of the arrangements have every hope that this year's fair will be even better.

A large number of schools are competing. The weather conditions have been favourable for exhibition purposes, and the only thing required is the attendance of the public.

The school fairs held throughout the Province are doing a great deal to encourage the interest of the children in Alberta's primary industry. The spirit of competition is aroused, and it is in this way that the best results among the children are attained.

Even though the harvesting operations will keep a number away, let us hope that every adult who finds it at all possible will attend. It is an encouragement to the children and to the teachers, and in any case the exhibition will be well worth seeing.

WESTBOUND RATES LOWERED

The decision of the Board of Railway Commissioners recently announced is a very important one to Alberta. It will mean this year a difference of four cents more in the price to be received by the farmer for each bushel of wheat shipped.

Some years ago this district was in an unfortunate position geographically by reason of its distance from Fort William, being at the extreme distance from the head of the lake. Since the opening of the Vancouver-Pasadena route, this position is reversed, and we are in a favourable geographic position, being the nearest large grain growing area to the Western outlet, and will pay a less freight rate than points further east.

The decision of the Board to equalize the rates on eastward and westward shipments is a fair one. The west has suffered long under the discrimination of a shipping tariff that imposed a much higher freight rate on grain going westward than on grain going eastward.

It is another reminder that things are going well for Alberta, and that time, aided by vigorous agitation, will alleviate difficulties that at first would appear unmountable. A lowering of the freight rate by approximately four cents a bushel will make a big difference to the prosperity of Alberta. The order is effective September 15th. The order has not been approved by the majority of the commissioners, but Chief Commissioner McKowen has ruled that on account of the main movement in grain taking place within the next three months the order should be brought into effect at the date stated.

PREMIER GREENFIELD

To read some of the Alberta dailies, the impression gained would be that Premier Greenfield is a nonentity, controlled by some unseen power behind the throne. When the government first took office, the intimation was given that H. W. Wood, President of the U.F.A., was the real boss. Last year the Wood legend was dismissed, and Hon. Geo. Hoadley named as the deus ex machina. This spring Hon. J. E. Brownlee was nominated as the strong man behind the Government, and at the present moment Hon. W. V. Smith, the minister of railways, is being loudly advertised.

The question may be asked "Why all this depreciation of the Premier of our Province?" One reason may be, that besides his undoubted hold on the people in the country districts, many of whom know him by reason of his association with the U.F.A. over a long term of years, he is making a very good impression upon the people of the towns and cities by reason of his faith in the future of this province, which breathes forth in every public utterance, and by his personal appearance. He has the look of a man who

should be first in the affairs of his province.

Again, Premier Greenfield's record since he came to Alberta has been one to inspire confidence. He came to Alberta from an office in London, England, without any previous knowledge of farming, worked as a hired man, then as a homesteader, and has made a success of the business to which he put his hand. In this respect his career strikingly resembles that of Premier Dunning, of Saskatchewan. At the same time he has for many years taken an active part in the affairs of his country, which culminated in his being offered the Premiership when the Farmers, somewhat unexpectedly, found themselves holding the reins of office. Since his election the Province has passed through a period of economic depression general to the whole of Canada, and has emerged in splendid shape. He is not a crank, but has practised what might be termed a sane conservatism. He has not been guided by the resolutions of the U.F.A., by the mortgage companies, or even by the mandates of the daily newspapers, but has taken all factors into consideration, and while his administration has often times been accused of inaction, and even incompetence, its honesty has never been called in question. After all, as Burns said "an honest man's the noblest work of God." While we do not hold by the closed system of nomination and election of candidates practised in last election by the U.F.A., we believe still less in the introduction of Conservative and Liberal politics into Provincial affairs. We further believe that if the Premier comes forward before the next Provincial Election with a plan that will allow all

Slats' Diary

Friday—well pa and Ant Emmy still continues to have their little Miss understandings yet once and a while. Today pa was a twirling to Ant Emmy and he says, well they have cut down the income and as my Overland sports was no big this year why I guess I won't have to pay to incur taxes for this year. Ant Emmy says, why you haven't got no business what do you mean by overland sports. Pa sed, well I been keeping acct. of the late ma boys enay ways.

Saturday—Pa had a spot a lot of money on the automobile this week. He says this ain't gonna be the case next year. He says he is a gonna save money next year if he hasn't sorry to do it he says.

Sunday—They was a very good show at the pitcher show this evening and I wood of enjoyed it very much. I was on lucky once to get invited out of the show on acct. of my and I spit on the floor a couple times. That's what you get from the lickish habit.

Monday—well are stool starts to morrow and I ant in a very good humor to ride in my dry tonks but maybe are class will have a full ball and I will be elected capt. of team and I think then should work to be suchy had population after all, we will see.

Tuesday—rained and the 1st day of school. Pug Stevens and I like to go to had a five 1st thing. He sed that he had a man yesterday with was 50 yrs. of old age. I sed, Poo that ain't nothing I bet my pa cut of licked him to even if he was a 100 yrs old I bet.

Wednesday—Pa pointed out the laziest man in this country tonks as he rode past are house. He says he is so lazy at when he goes to a show he takes a box seat so he won't have to watch but only 1 ear.

Thursday—I guess Mr. Gilman is a bit dummen pa is even. Today his wife told him to hang up Mrs. Bunch and get her Address. So he goes and buys her a Crap de Chene dress and talks it down to where she lives.

Montreal, Que.—Imports of British anthracite this season already exceed the total imports for the whole of last year. The reasons given for this are the threat of a strike in the American anthracite fields and a growing preference for Welsh and Scotch coal in Canada. To date 246,316 tons of Welsh and Scotch anthracite have been brought to this country by steamer, while the total for the whole of the 1924 season was 219,227 tons. In addition 672 tons of British coke have been shipped here and this represents a departure in the coal importing business.
